To whom it may concern:

I would like to recommend Froylan Valencia as a candidate for a position with your organization. In his position as a Software Engineering Intern, Froylan was employed in our office from June - August 2016.

Throughout his time with our organization, he demonstrated critical skills that would make him an excellent employee at your company.

Froylan did a terrific job in his position and was an asset to our organization during his tenure with the office. He has excellent written and verbal communication skills, and is able to effectively multi-task to ensure that all projects are completed. Because of his effectiveness, I even gave him additional requirements, including developing a docusign integration with Zuora for Salesforce. Froylan went above and beyond in that assignment, and successfully presented it to the entire technical community in the Global Services department of Zuora. Froylan was always willing to learn new technologies and languages. This would be particularly valuable for your research in Big Data.

He would be an asset to any employer and I wholeheartedly recommend him for any endeavor she chooses to pursue. Please let me know if you have any further questions.

Sincerely,

Samuel Kuldinow
Technical Solutions Consultant
